

Arnaud YILMAZ

Data Project Manager / Data Engineer

Paris Region, France (Open to relocation) · arnaud.yilmaz@gmail.com · +33 7 51 57 78 91
<https://arnaudyilmaz.com/> · Driving License: Full (Motorcycle & Car)

Data & AI Engineer graduate from Efrei Paris, operating across the entire data lifecycle from ingestion to visualization. With 2 years of experience bridging technical development and project management, I leverage a dual skillset to automate data pipelines, deploy analytical dashboards, and lead vendor assessments or data solution deployments. Available from October 2026 to structure, secure, and turn your data into actionable business assets.

Technical Skills

Interests

- Sports Data Analytics (Football)
- Geohistory
- Traveling

Professional Experience

Data Project Manager | FranceAgriMer

Since Oct. 2025

Montreuil, France

Project: Data Catalog & Governance Steering

- **Data Governance:** Led the implementation of an enterprise data catalog to map and catalog the organization's data assets.
- **Architecture:** Conducted technical benchmarks of market solutions and analyzed integration constraints.
- **Project Management:** Coordinated cross-functional technical and business teams, defined project roadmaps, and facilitated steering committees.

Data Engineer / Analyst | FranceAgriMer

Oct. 2024 – Oct. 2025

Montreuil, France

Project: Pipeline Development & Business Intelligence

- **ETL & Pipelines:** Maintained and scaled data workflows using Talend and Python scripts for database ingestion.
- **Business Intelligence:** Designed tracking dashboards and key performance indicators (KPIs) using SAP BO and Matomo (Web Analytics).
- **Data Analysis:** Explored complex datasets using SQL (PL/SQL) and Python to resolve business requirements.
